

MATERIAL HEALTHINESS CERTIFICATE

Dear Sirs:

This is to certify that material used in the PPE applied to certification, comply with the Regulation (EU) 2016/425. In particular, for those parts of the product coming into contact with skin doesn't undergo any appreciable alteration from contact with sweat or substances likely to be found in toiletries. Hereby, it's declared that the PPE materials and parts, including any of their decomposition products, do not adversely affect user hygiene or health.

The materials are know not to cause skin disorders and are not unhealthy for the user.

Sincerely

HEBOLUTION PARTS S.L.U.
