- Rear direction indicator

DESCRIPTION

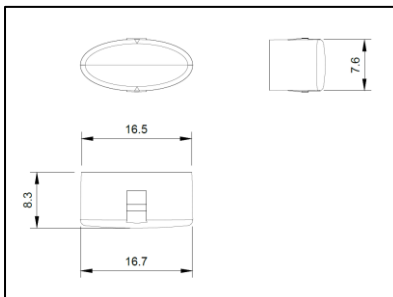

SHIN YO LED flasher MODUL ELLIPSOID with 3 very bright SMDs, E-examined
Very unobtrusive and tinted plastic body with SMD LED technology.

This hard-wearing and powerful LED technology with specially adapted lens is brighter than normal LEDs with the same power consumption and allows an extremely small and flat design.

Wire color	Wire length	Function	Dia
black	400 ± 20mm	ground (-)	AWG26
yellow	400 ± 20mm	indicator (+)	AWG26

DIMENSION (mm)
